- SQL
- C++
- java
- Figma
- Git and Github

Profile

I am a dedicated and driven individual focusing on programming and problem-solving. I have expertise in HTML5, CSS3, SQL, JavaScript, C++, Java, and some PHP. I am eager to expand my knowledge in areas such as React, Node.js, and app development (React Native).

I approach problem-solving with a methodical and analytical mindset, and I am not afraid to seek advice when necessary. Overall, I am committed to improving and staying ahead in the tech industry. With my strong problem-solving abilities and willingness to learn, I can make valuable contributions to any team or organization.

Work Experience

WEB DEVELOPMENT PROJECTS
2022- 2023

- **Trade Hub**: It is an e-commerce platform that provides users with a seamless online shopping experience. (Website Link)

- **Computer Science Society Website**: I built a responsive website for my university's Computer Science Society. The website serves as an introduction to society, showcasing its activities and upcoming events. (Website Link)

- **E-Clinic**: where we offer a range of sections and services to cater to your healthcare needs. Our website is designed to give you a seamless and user-friendly experience. (Website Link)

- **CSS Elements**: I have uploaded various CSS web elements that have proven to be helpful in reusing and implementing them in future projects.(Web Link)

Education History

COMSATS Institute of Information and Technology Bachelor of Science - BS, Computer Science · (August 2020 - 2024)

CGPA (5th Smester): 3.57/4
